English - Writing Tutor Information

What we do...

We help students with the writing process: brainstorming, writing, and revision. Whatever the stage of the writing process, come in to improve, revamp and restyle! It doesn't matter what class you're writing is for, we have tutors ready to help you. We'll look at the organization of your writing, whether it addresses your assignment effectively, sentence structure, grammar, or any specific concerns you have about your writing.

What to bring...

If you're willing to work on improving, we're willing to help! Bring your assignment, bring your ideas, and bring your writing, preferably a rough draft. Your paper doesn't have to be finished, but we'd love to help you with any writing you have done.

What to expect...

Our writing tutors provide personalized attention to students during thirty- minute sessions. Additional time may be requested.

While we can't offer an editing service, we can look over your writing and offer suggestions, model successful writing strategies, and help identify patterns of problems that are specific to your writing. You will work one-on-one with a writing tutor who may ask you to read your work aloud, take notes, and try new writing techniques. Be prepared to discuss your writing.

| Walk-in or By Appt | Tutor | Day | Times | Room | Additional Information |
