

Personal Safety Is Critical

First Aid

This 8-hour, instructor-led class teaches students critical skills needed to respond to and manage a first aid, choking, or sudden cardiac arrest emergency in the first few minutes until emergency medical services (EMS) arrives. Students learn skills such as how to treat bleeding, sprains, seizures, shock, and other first aid emergencies. This course also teaches adult CPR and AED use.

Registration Code: HLRT-1017-T0801

Date: Saturday, April 13, 2019

Time: 8 a.m. - 5 p.m.

Fee: \$55.00

CPR/AED

This American Heart Association training course is designed to provide the knowledge and skills necessary to issue certification in American Heart Association Healthcare Provider BLS CPR. This course will guide the student through all of the current AHA HCP BLS CPR knowledge and skills. A Healthcare Provider BLS CPR card will be issued to every student that successfully completes a written and practical skills examination. This card will remain current for two years. Students will also receive a high quality barrier device Pocket Mask to keep upon completion.

Registration Code: HLRT-1018-T0801

Date: Saturday, April 27, 2019

Time: 8 a.m. - 5 p.m.

Fee: \$55.00

Active Assailant – Your Response

This workshop will include a lecture as well as discussing some “real life” scenarios that will provide valuable information to promote personal safety. Participants will discuss identifying characteristics of an armed shooter, discuss the Run, Hide, Fight concept, delving into hiding and exits areas, and identify potential objects that can be used as a defensive weapon.

Registration Code: PRSN-1079-T0201

Date: Saturday, May 11, 2019

Time: 9:30 a.m. - 11:30 a.m.

Fee: \$25.00

Fire Safety – Putting That Fire Out

In less than 30 seconds, a small flame can turn into a major fire and it only takes minutes for an area to be engulfed in flames or filled by thick black smoke. Mitigating fire risks for businesses and high occupancy establishments is best done through the use of portable fire extinguishers during the incipient or initial stage of fire growth. Upon completion of this basic fire extinguisher course, participants will have an understanding of portable fire extinguisher use and application. Students will know how to safely operate a fire extinguisher and what types of extinguishers can be used on what types of fires.

Registration Code: PRSN-1080-T0301

Date: Saturday, June 8, 2019

Time: 9 a.m. - 12 p.m.

Fee: \$25.00
