

Emergency Response & Evacuation Testing Evaluations

Date of Drill: 4/15/16

OCC simultaneously tested, for the first time, a fire drill with a new desk top alert notification system. All Public Safety personnel and Building Marshals directed the exercise that all building occupants across all 5 campuses and the District Office participated. An emergency operations center was activated to monitor and assess. All locations reported a successful exercise wherein the all clear was given within 15 minutes and no reported anomalies.
